TOUGHBOOK SMART ESSENTIALS

Get visibility and take control.

TOUGHBOOK Smart Essentials is a suite of Enterprise Mobility Intelligence tools, providing real-time insight into mobile device and battery health, enabling customers to proactively find and fix enterprise mobility issues.

Smart Service

Real-time analytics, powered by B2M Solutions, showing the health and performance of your estate of mobile devices, focussing on areas such as battery life, data usage, disruptions and connectivity. Enables the user to recognise patterns of usage and potentially pre-empt issues before they arise.

Smart Battery Monitor

An additional "Smart" module that monitors battery usage and health in detail, focusing on battery serial numbers, the software allows the customer to track, identify and replace batteries before they impact productivity. With dashboard access and alerts.

Smart Device Monitor

An additional "Smart" module that monitors device usage in more detail. Dashboard access provides information such as device location, user experience, including group selection on Android devices and also enables alerts and geofences to be set up.

TOUGHBOOK Smart Essentials can be purchased as a bundle, including all 3 modules detailed above as well as APIs to be able to pull the data into other business intelligence analysis tools:

- CF-LE5PSE551 1 year Smart Essentials Bundle
- CF-LE5PSE553 3 year Smart Essentials Bundle
- CF-LE5PSE555 5 year Smart Essentials Bundle

Alternatively, Battery Monitor and Device Monitor modules can be bought separately

- CF-LE5PBA001 1 year Smart Battery Monitor software licence
- CF-LE5PBA003 3 year Smart Battery Monitor software licence
- CF-LE5PBA005 5 year Smart Battery Monitor software licence
- CF-LE5PDA001 1 year Smart Device Monitor software licence
- CF-LE5PDA003 3 year Smart Device Monitor software licence
